DIMENSIONS

10.2 x 12.1 x 2.5 cm

Smart Thermostat

The ADC-T2000 from alarm.com is a Z-Wave connected smart thermostat which forms part of alarm.com's Smart Heating solution.

This multi-zone heating control is an elegant and simple-to-install device that is wall mounted and can be battery or 24VDC powered. A large and bright display allows simple navigation for manual operation, while the mobile app allows remote control from anywhere. Precise digital control, simple schedules and scenes, and integration with the Alarm.com security system equate to superior comfort and energy saving.
